RECOMMENDED BLADE FOR CUTTING

Diamond cutting blade. Diamond cutting tools.

SIZE:— 8' X 4' | THICKNESS:— 1 MM
MATERIAL:— DECORATIVE LAMINATE

40 TEETH
CUTTER BLADE

NOTE

- शीट प्राप्त करने के बाद सबसे पहले डिजाइन और रंग की सही जांच कर लें उसके बाद ही कटिंग या पेस्टिंग करें। अगर बिना जांचे कटिंग या पेस्टिंग की गई है और डिजाइन या रंग गलत है तो शीट चेंज नहीं होगी।
- दिवार रंगने या फर्नीचर पर लगाने से पहले लैमिनेट शीट को पूरी तरह से ढककर रखें ताकि उस पर रंग की बूंदें या ग्लू न गिरे। अन्यथा, रंग की या ग्लू की बूंदें गिरने से शीट खराब होगी तो हम जिम्मेदार नहीं रहेंगे।
- LAMINATE को पलट कर काटना होता है। कटर, ब्लेड या लैमिनेट कटर से काटना है।
- पैकिंग में दी गई पॉलीथिन को LAMINATE के नीचे रखकर शीट को काटना है।
- LAMINATE को पानी या कोलीन (ग्लास क्लीनिंग केमिकल) से साफ करें। (ज्वलनशील पदार्थों जैसे की पेट्रोल, डीजल, थिनर आदि का उपयोग न करें)
- LAMINATE शीट METAL प्रोसेस होने की वजह से थोड़ा बहुत वेरिएशन होगा। इसलिए आप एक साथ आर्डर करें ताकि वेरिएशन न आए और हम भी इस बात का ध्यान रखेंगे कि वेरिएशन न आए।
- LAMINATE के सैंपल और शीट के कलर्स में मामूली बदलाव रहेगा।
- LAMINATE को साफ करने के लिए शीट पर कॉटन के कपड़े और टिशू से साफ करें, रगड़ना मना है।
- LAMINATE शीट में बबल आने की जवाबदारी हमारी नहीं रहेगी।

CUTTING RECOMMENDATIONS

For precise cutting of fabric or leather laminates, we recommend using a 40 teeth Diamond Cutter Blade. Opt for Diamond cutting tools for best results.

CHOICE OF ADHESIVE

You have the flexibility to choose between Fevicol, ProBond or Heatex adhesives according to your preference.

IMPORTANT NOTES

- No guarantees or exchange under any circumstances.
 - Colour variation may occur between material batches. Using the same batch material is recommended to maintain consistent colours.
 - The actual colour of the laminate sheet may differ from this brochure due to factors such as high humidity, plywood with high moisture content, uneven surface of the substrate, inferior adhesive quality, or insufficient pressure during bonding. Please note that any delamination or applying the sheet won't be addressed, as these issues often result from inadequate pressing during the application process.
